Support Group for teachers teaching in small schools

Teaching in small schools can be both rewarding and challenging. The aim of this group is to reduce the challenges!

Are you a classroom or SET teacher that would like to collaborate and plan with other teachers teaching the same or similar class groups to you?

Or are you a teaching principal who would like to work collaboratively with other teaching principals on whole school policies and procedures as well as classroom planning?

Come along to our initial support group meeting for more information.
